

IEEE WorldHaptics 2017

June 6-9, 2017 | Fürstentum (Munich), Germany

Save the Date – IEEE WorldHaptics 2017!

It is our pleasure to announce the next WorldHaptics to be held in Fürstentum (Munich), Germany.

IEEE WorldHaptics is the premier international conference addressing all aspects related to haptics, covering the basic scientific underpinnings, technological developments, and algorithms and applications. It is a central venue for reporting research results and demonstrating novel capabilities in the field of haptics.

Important tentative dates

- **Paper Submission** January 2017
- **Paper Acceptance Notification** March 2017

There will be many ways to participate in the conference including the submission of full-length technical papers, late-breaking work-in-progress papers; demonstrations; participation in workshops and tutorials; and exhibition of commercial offerings. Corporations are also encouraged to consider sponsorship opportunities as a means of both supporting this dynamic community and maintaining visibility within it.

We hope to see you in Fürstentum (Munich) in summer 2017!

Matthias Harders, Sandra Hirche
General Co-Chairs
